Ideal Heavy Horse Harness

This robustly made marathon harness is very strong and durable. Made of quality leather and strong fittings. The harness is reinforced with nylon which is stitched between the double pieces of leather. To provide optimal comfort, the saddle pads, breast, breeching, browband and noseband are softly lined and padded. The padding reduces rubbing and pressure points.

Available in single, pairs and teams.

Ideal Frisian Harness

This original Frisian harness is complete with leather reins and traces. Attachment for rope reins and traces are included with this traditional Frisian harness. Breeching is not included, but can be ordered separately. Available in single, pairs and teams.

Jan de Boer

"The suppleness and durability of the Ideal harness reminds me every day that I have bought a quality product for my ponies..."

Jan de Boer
World champion 2007 – Dutch pony team champion 2010

COMBI HARNESS

Ideal Equestrian

Leather Tech
harness

Driver: R. Pestman - Photo: Joshua Keller

The Ideal combi harness

The IDEAL combi harness offers drivers maximum combination versatility and user comfort. It can be easily used to drive single, pairs and teams.

Breast collars can be easily interchanged for left or right horses, without having to change the harness. This universal harness is available in the sizes: Shetland, Pony, Cob, Full, and Shire.

The new IDEAL "Leathertech" harness has the same well known quality and fit. As a new trend, "Ideal Equestrian" has introduced a new oil pull up leather which meets the needs of as well recreation as competition drivers. The leathertech is also a combi harness, which with a few small adjustments, offers the choice to drive single, pairs, tandems, or Teams. This versatile harness is available in Black/Black, Black/ London or Chestnut.

The single harness is complete with bridle, breastcollar, traces, breeching, reins, crupper and dock, martingale, and backpad with safety tugs. Pair and team harness is complete with leather trace carriers. Breeching is not included, but can be ordered separately.

Quality Harness for a very affordable price....

Ideal Equestrian

WEB TECH COMBI

Harness

Ideal "web Tech" harness carries the same well known characteristics, quality and fit as all our Ideal harness. This harness is very light weight, strong, durable and washable, which makes it virtually maintenance free. Bridle and reins for all combinations are not included with the "Web Tech" harness.

A leather bridle is advised, which along with the reins can be ordered separately.

Available in black/black and black/london.

Driver: M. Otten (photo: E. Nijholt)

The New Ideal Euro tech Combi harness is the latest innovation in the world of driving Harness. The Ideal EuroTech is made from the most modern PI coated polyester webbing. The result is a product which looks similar to leather, but it is much stronger and easier to clean. The nature of this material means that it will maintain its flexibility over a wide temperature range and resist tear and cracks.

This Ideal Euro Tech combi harness can be easily used to drive single, pairs and teams.

The single Euro tech harness is complete with bridle, breastcoller, tracers, breeching, reins, crupper and dock, martingale, backpad with safetytugs. Pair and team harness is complete with trace carriers. Breeching is not included but can be ordered separately.

The Ideal Euro Tech Harness is:

- Strong & safe
- Comfortable
- Very light
- Perfect fit
- Quick to clean
- Ideal Design

Quality harness for a affordable price.

Carriage Lock

Some insurance policies demand a locking device, to insure the protection of your carriage against theft.

Di Hayes, Team gold - singles championship Italy

Anti Swish Tail Tie

This prevents the horse's tail from swishing over the reins. Buckles discreetly under the dock.

Size: full & pony

Ideal "oil pull-up" Leather Headcollar

Supple leather headcollar with ajustable nose strap. Can be easily removed from under bridle.

Available in Brown.
Sizes: Pony, Cob
and Full.

Kicking Strap

Discourages a horse from bucking while between shafts.
Available in pony, cob, full.

Harness Bag

This "Ideal" harness bag can be used to carry and store a single set of harness. The harness can be secured inside the bag with velcro straps provided. A mesh side panel ensures good ventilation, so that damp harness has the opportunity to dry, preventing it from becoming mouldy.

Colour: Black with blue binding.

Driving Gloves "Standard"

A quality leather driving glove, with rein finger reinforcements, and a leather/velcro wrist adjustment strap.
Available in sizes: XS, S, M, L, XL, XXL

Driving Gloves "V/D Kamp"

These deerskin gloves are very supple and strong, providing the maximum feeling between your hands and the horse's mouth.
Available in sizes 6 to 11.

Driving Gloves "Profi"

This driving glove provides maximum grip and comfort, due to its specially developed anti-slip leather palm, and its stretchy elasticated back.
Available in sizes: XS, S, M, L, XL and XXL

Also available in check design

Summer Apron

These aprons are made of a light weight woolen rug material, with colour contrasting bound edge and straps.

Available in the colours: navy blue, bottle green, burgundy, check, camel, and black

Double Sided Driving Apron

One side of the apron is made of a durable imitation leather which is waterproof, and the other side is made of a woolen rug material. The side can be easily changed and adjusted with a leather strap, which is attached with velcro.

Available in the colours: navy, bottle green, burgundy, check, camel and black.

Waterresistant Rug

This driving rug is made of a strong water resistant nylon exterior, with a warm fleece lining. This kidney rug, complete with terret holes, offers warmth and comfort whilst driving in cold or wet conditions. The same rug is also available in wool, to be used as a sweat rug.
Available: pony, cob and full size in navy blue and bottle green.

Fly Rug

This flynet rug with neck is designed to be used whilst driving, for maximum protection against flies. Tug and rein terret holes ensure a good fit over the harness. The flynet rug can be used for single and pairs.

Available in sizes 165 up to 205 in navy blue or bottle green.

French Collar

- As comfortable as a full collar, which offers a good bearing surface
- Easy to fit
- Is as adjustable as a breast collar
- Shetland, Pony, Cob, Full and extra Full
- Single or pairs

Full Collar

A new product in our collection is the full collar. This handmade straw collar is supplied with stainless steel hames.

Available for single and pairs
Sizes: 44 to 64 cm

Freestyle breastcollar

Freestyle collar system designed for equine anatomy. Maximizes natural freedom of movement, allowing horses to move as nature intended.

Available in single: shetland, pony, cob and full.

Elasticated Trace Carrier

Avoids your horse stepping or kicking his leg over the traces. The tensiety of the elastic holds the trace high up in place.

Collar Pullers

These pullers are supplied with a single full collar. (pairs pullers are also available)

Nose / Throat Lash Attachment Strap

This strap is used to attach the noseband and the throat last together, to prevent the bridle from slipping off. A small D ring at the bottom of the strap can be used to attach a lead rein.

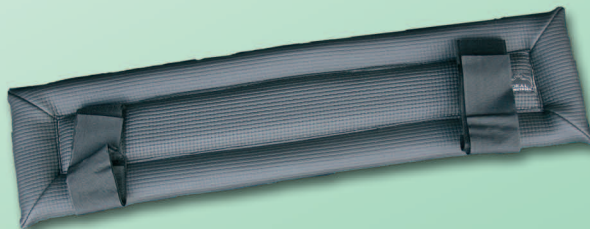

Safety Belt

This safety belt is especially developed for marathon driving. It is attached on one side of the carriage seat and the other side is held in position by the groom. This gives the driver a steady and safer feeling on the carriage. Colours available: black, nut brown and chestnut.

Harness Protection Pads "Ideal"

These practice protection pads are made of a supple washable synthetic material, which is very soft and lightweight. Colour: Black

Size's of back pad protection pad's 60 x 14 cm
60 x 17 cm

Size's of breast collar protection pad's 90 x 11 cm
90 x 14 cm
120 x 14 cm
120 x 17 cm
150 x 14 cm
150 x 17 cm

Oval Roger Ring

Easily attached onto bridle, to guide leader reins of tandem's and teams. The shape of this ring ensures that the reins run smoothly through the wheeler bridle's. Available in Pony and Full size.

Trace Attachment

These fitting's are used to easily convert trace ends, and are recommended when using quick release shackles. Sizes: 35 & 45 mm

Harness Rack Sets

Hang your harness up neatly with this 4 piece plastic coated metal rack set. For back pad, breast collar, bridle and reins. Colour: Black

Harness Trolley

A Handy harness trolley to neatly hang a single or pairs set of harness up. This trolley has a metal basket attached to prevent harness parts dragging over the ground, and Includes two whip holders.

Available in: Black

Driving Cone

This FEI standard driving cone is made from a high quality material, which is flexible and made to the original sizes. The plastic balls are not filled with water and therefore are freeze proof.

Plastic cover with number !

Manure Bag

This manure catching bag can be used for single and pair turnouts. The bag is attached onto the breeching and under the front of the carriage.

Colour: Black

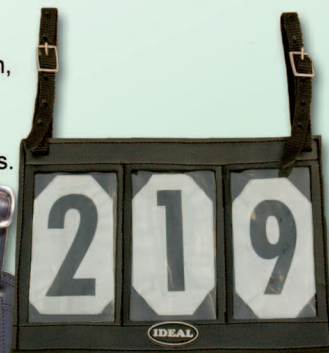

Available in Pony and Full size.

Number holder for the groom, or military rider. Excl. numbers.

Startnumbers

Available in black, Australian nutbrown, or chestnut (new!!). Brass or white metal excl. numbers.

Synthetic number holder. Available in black. 3 or 4 numbers.

Ideal Equestrian makes and develops harness, together with national and international show and FEI drivers.

Because of the high demands of competitive drivers, the standards of our harness is our priority. All stitching is sunk into the leather, which prevents it from rubbing against the horse, and eventually wearing. The sizes of our harness is wide ranging to guarantee a good fit.

Made to measure craftsmanship

Alongside our standard range "Ideal Equestrian" can make made to measure products, to customers specification.
